STRONG FACTS!

A great many people are asking what particular troubles Brown's Iron Bitters is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880. My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now able to do all my work, and am regaining strength daily, and I cheerfully recommend it to all.

I cannot say much in praise of it. Mrs. Mary E. Brantley.

173 Fremont.

Kidney Disease Cured.

Christiansburg, Va., 1881. Suffering from kidney disease, from which I could get no relief, I used Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.

J. KYLE MONTAGNA.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881. After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.

Mrs. JAMES HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

LAND SWINDLERS.

Now, after so long a time, we have a declaration from the Federal Land Department at Washington that parties who have been enclosing Government land for grazing purposes or for speculation, cannot hold the same against settlers. As a legal proposition this has always been true, says the San Francisco Bulletin. Practically the Government has done nothing about it. This abuse has been growing for years. It has been described many times. There is some hope now that something will be done. There are many hundred thousand acres of good land that are held by bogus titles—or, rather, by no titles at all. We could mention one man or firm largely interested in cattle who hold from 10,000 to 20,000 acres in this way. They inclose water courses or springs, and a considerable frontage; the water is taken up in fractional section, and with a key thereto settlers are driven off. This is an old device. It has probably been adopted more extensively on this coast than in any other part of the Union. It is high time that the Federal Government should protect honest settlers against these open and palpable frauds. It should see to it that the settlers can have the fullest right to take up a homestead within any brush inclosure where the mere color of title has been asserted in this illegitimate way. It should look after deputy surveyors who are willing to become the mere tools of unscrupulous speculators. It will be a good day when land frauds are as promptly detected and exposed as any other frauds, and when every quarter section of public land not legitimately held, shall be open to settlers under the fullest protection of the Federal Government.

A New York Herald correspondent writing from New Mexico recommends the following summary way for settling the Apache war: "Disarm all reservation Indians and kill all found off the reservation, as well as to court-martial and shoot all white men caught selling arms to the Indians."

An Unsuccessful Attempt to Lynch a Murderer.

TUCSON, April 29. A prisoner named Casey shot jailer Holbrook here this morning. The citizens organized for the purpose of lynching him, but after a desperate struggle were driven back by the officers on duty at the jail. There is strong talk of assaulting the jail tonight for the purpose of lynching him, but the attempt will make much trouble. The jail is strongly guarded. The citizens are terribly excited. Casey is in jail for murder and highway robbery. He murdered three men.

A Brace of Suicides.

DIXON, Cal., April 30. Charles Stoneman, a German, committed suicide by shooting himself, at Dr. Wells' ranch, near Silverville, this morning. No cause assigned.
 SAN FRANCISCO, April 30. Victor Proudhon, a Frenchman, aged 26, suicided yesterday by cutting his throat. The cause was disappointment on account of a broken leg which remained in a useless condition.

A Negro Murderer Hung and Riddled With Bullets.

CHATTANOOGA, April 30.

A special from the Government works at Mussel Shoals, near Florence, gives an account of the lynching of George Ware (colored), who murdered a white boy aged 12, to secure \$12. After robbing the boy he threw him three times into the river, but the boy swam back to shore. After amusing himself by throwing him in the river he tied him and beat out his brains with a stone and threw him in again. A man on the opposite shore witnessed the murder, but the river was too wide to make his presence known. A description of the negro was given the jailer, who arrested him. Saturday night a mob visited the jail and took the prisoner and hung him to a beam in the depot building, and then riddled his body with bullets.

Patriotic Catholics Have Something to Say.

PHILADELPHIA, April 30.

A meeting of members of the Roman Catholic Church, many of whom are members of the Grand Army of the Republic, was held this afternoon to consider the recent decree of Archbishop Ward against permitting uniformed bodies other than Catholic societies to enter the churches of this city to attend the funeral of a deceased comrade. As there was some doubt as to the authenticity of the order, a committee was appointed to wait upon the Archbishop and also to secure his consent to a requiem mass in the Catholic Churches on Decoration Day, and that Catholic members of the Grand Army of the Republic be allowed to attend in uniformed bodies.

Archaeological Discoveries.

COLLINGSVILLE, Ill., April 29.

A few miles from this city an interesting and valuable archaeological discovery has been made on the farm of Hon. J. R. Mill, where there is a group of ancient mounds. The find was made by McAdam, Assistant State Geographer, who dug up 19 human skeletons, male and female, most of them in a good state of preservation; and he also found a large quantity of pottery, copper and stone ornaments and domestic and agricultural implements. Among the latter were several flint hoes which had evidently been used a good deal. Further excavations will be made.

A County Squabble.

HELENA, M. T., April 30.

J. B. Hubbell and Dan Robertson of the Board of Commissioners of Custer county, and G. E. Stillwell, County Clerk, ousted by act of the Legislature for alleged fraud, have been indicted for refusing to give up the books and accounts belonging to the county. It is regarded as an opening wedge toward their prosecution for malfeasance in office, which, it is claimed, has thrown the county \$20,000 in debt. Chief Justice Wade has ordered the County Treasurer to refuse payment of warrants aggregating \$10,000, drawn by the old Board of Commissioners in favor of themselves and their associates. These warrants were issued subsequent to the passage of the act of the Legislature declaring their offices vacant.

Proposals for Building War Vessels.

WASHINGTON, April 30.

Advertisements of the Navy Department for proposals for the new steam cruisers will appear in the New York, Boston, Philadelphia and Baltimore papers next Tuesday. Proposals will be received either from American ship-builders, whose ship yards are fully equipped for building or repairing iron and steel ships, or from constructors of marine engines, machinery and boilers. Satisfactory evidence that bidders are such builders or contractors must accompany proposals or be submitted to the Department in advance.

The Dynamite and Daggers of Secret Societies.

NEW YORK, April 30.

At a meeting of the Irish Confederation of America the Philadelphia Convention was approved. Bishop Nulty of Michigan acknowledged the receipt of funds and said that periodical famines are the plain and direct results of misgovernment. Rash and impulsive spirits are often generous, and brave men chafe incessantly under a form of existence so degraded and so unmanly, and therefore, finding constitutional agitation interrupted by unjust laws, they turn to the dynamite and daggers of secret societies.

A Proposition to Investigate Irish Affairs.

PHILADELPHIA, April 30.

A committee has been appointed to wait on the newspapers of this city to urge that a representative of the press of Philadelphia be sent to Ireland to investigate the true condition of affairs in that country in order to inform the world of the evils under which the Irish people are suffering.

The Results of the Recent Cyclone in Texas—Loss of Life.

ST. LOUIS, April 29.

Dispatches from Waco and other places in Texas say the cyclone of

Friday was very severe throughout a large section of the State west and southwest of Fort Worth and Dallas. The Missouri-Pacific section house near Millano Junction is destroyed and one of the hands killed. A school house at Mount Vernon was destroyed and three children injured; another school house at McGregor was blown down and nine children seriously wounded. At Rock Church the house of Cliff Branham was leveled and he and wife killed. One child was blown several hundred yards, and his other children could not be found. Wm. Scott and a man named Mitchell, living in the same neighborhood, were killed, and two old ladies named Graves and Donan wounded fatally. Houses, fences and everything movable in the track of the storm were destroyed or blown away. Mrs. Diamond was killed and her daughter fatally injured. Near Pelton an immense quantity of hail fell, many hail-stones being literally chunks of ice, some five inches in diameter.

Another Fatal Coal Mine Disaster.

ASHLAND, Pa., April 30.

A fearful explosion has just occurred at the Keystone colliery mines by which several lives have been lost and a number of miners seriously, probably fatally, injured. The explosion was caused by the sudden collapse of a pillar, causing an immense fall of coal. The rush of coal forced down gas with such velocity as to cause an explosion. The full extent of the disaster cannot yet be learned. Great excitement prevails at the mouth of the mine, where people are gathered in large numbers. Charles Tyler, Patrick Regan and Connor Walter have been taken out, more dead than alive. The dead body of Andrew Jones has just been taken out. Three others are known to be killed, and a number of others are also badly burned. Physicians and priests are hurrying to the scene of the disaster.

When a Woman says She Won't She Won't.

MILWAUKEE, April 30.

The decision of U. S. Commissioner Ryan on a rehearing of Katie Kane, a female lawyer, on habeas corpus proceedings, because Judge Mallory of the Criminal Court committed her verbally for contempt in throwing water in his face, was this morning reversed by Judge Hamilton of the Circuit Court, who reviewed the case on a writ of certiorari. Kate was remanded back to jail. Bail was offered, but Judge Hamilton decided that the case was not bailable. The prisoner has said she will never pay the fine of \$50 if she stays in jail all her life.

The Dynamite Fiends in Council.

NEW YORK, April 30.

The Central Labor Union discussed the relation of the labor question to the revolutionary movement in Europe. The general sentiment favored the use of dynamite, the arguments being that kings and potentates use every engine of destruction in their wars, and particularly against the people when revolutionary outbursts take place.

Thousands of Workmen on a Strike.

PITTSBURG, Pa., April 30.

Eight thousand coal miners, several hundred cigar makers and a large number of journeymen plasterers will quit work next Tuesday. Unless employers concede to demands the miners will strike against half a cent per bushel reduction in the mining rate, while cigar makers want an advance of a dollar per 1,000, and plasterers demand an increase of from \$3 to \$3.25 per day.

The Trade in Pauper Corpses.

BOSTON, April 30.

The Tewksbury investigation was resumed this morning. Timothy Kelleher had charge of burials at Tewksbury most of the time since 1879. Cases which had contained bodies from the State prison were sold and the money given to Thos. Marsh, Jr. About eight cases remained when he left last Saturday. He had sold about 15 in all.

Five Hundred Leagues of Land for Ten Cents an Acre.

ST. LOUIS, April 30.

A San Antonio (Texas) dispatch says Governor Madero of Coahuila, Mexico, sold 500 leagues of State land in the Sabine river region a few days ago to the representative of an English syndicate for the nominal price of 10 cents an acre. The land will be used for ranch purposes, little of it being suitable for cultivation.

A Deranged Mother Burns Herself Fatally.

NASHVILLE, April 30.

Mary Bellamere, wife of an Italian knife-grinder, yesterday saturated her clothing with coal oil and set fire to it, and was horribly burned and will die. She had been deranged for several weeks on account of the death of her child.

Another Lie Nailed.

ST. LOUIS, April 30.

A dispatch from Prof. A. F. Bandler to his family at Highland, Ill., says he is safe and well at Fort Apache, Arizona, and that the report of his capture by Indians is untrue.

The Irish Unfit to Enjoy National Independence.

LONDON, April 30.

The Times says the Irish convention at Philadelphia commenced with a clap-trap of folly and malignity and ceased after the same fashion. The whole scene, it says, would be painful were it not supremely ridiculous. The only practical suggestions made by the convention for injuring Great Britain is advice to the people of Ireland to buy nothing from England. It is a confession of impotence when Irish malice is driven to such an expedient, which, if tried, would only injure its adopters. The lesson for Great Britain is to ignore Irishmen and abandon the hope of bringing them to a better frame of mind by the continuance of unmerited favors. They have already convinced the rest of the world that they are unfit to have national independence and they must be made to feel the strong hand of the law.

Conspiracy to Murder.

LONDON, April 30.

In the House of Commons this afternoon, Trevelyan stated that he believed a widespread conspiracy to murder existed in County Clare. The Government, he said, hoped to bring the conspirators to justice.

Extraditing Irish Suspects.

WASHINGTON, March 30.

Depositions will be lodged in the cases of five more alleged murderers, and secret negotiations are now proceeding between the British and American governments with a view to the extradition of these men.

TELEGRAPHIC BREVITIES.

—The steamer Catalonia arrived at Boston from Liverpool yesterday with 1300 steerage passengers, most of whom were brought at the expense of the British Government.

—In a religious riot at Port Said between Greeks and Arabs several persons were killed and many wounded, including a number of police. British troops and sailors with galling guns surrounded the Greek church to protect it. The Greek consul took refuge on board a gunboat.

IRON RANCH FENCE.

BUTLER TUBULAR IRON FENCE POSTS.

The boss ranch, farm and vineyard fence is now in the market. It is built with iron posts and barbed wire, the post being made of wrought and cast iron. The top of the post is made of one-inch gas pipe and pierced with holes through which a plain wire is inserted, which fastens the barbed wire to the post. The post is cast with three flanges and is twenty-one inches long. The flanges render the post immovable when inserted in any soil.

These posts are placed two rods apart with an iron stay between, and there can be any number of wires and any kind of wire used.

Three men can build one mile of fence per day on good ground. Fire cannot burn or injure it; cyclones will not move it, and floods cannot wash it away.

I sell fence loaded on cars in San Francisco at \$1 per rod for three-wire fence, and \$1.25 for five-wire fence complete, and to agents at reduced rates which enable a good live man to make from \$100 to \$500 a month on an investment of a small capital in territory, and any one wishing to purchase any county, State or Territory, can get a bargain by calling on or writing me of his desire.

Chas. Crocker and wife, in the Directors' car of the C. P., went east yesterday morning, accompanied by several friends. They will visit Salt Lake and other points of interest along the line.

Hank Smith, the well known mining superintendent, who was badly burned about the face and hands during the gas explosion at the Palace Hotel, has recovered partially and is in town to-day. One would hardly recognize Hank through his numerous bandages.

W. A. Bender, Home Secretary of the Ophir Mining Company, who has been down on the seacoast of California for several months for the benefit of his health, returned to the Comstock Sunday. He finds his health greatly improved. He was accompanied by his wife, who has also been on the California side of the mountains.

JOTTINGS.

The C. P. pay-car made folks happy yesterday.

The churches were all well attended yesterday.

Hon. H. L. Fish is preparing to build a wing to his house.

An enterprising showman with nine South Sea Islanders went east this morning. He had his cannibals chained to the car seats to give them a savage appearance.

Schafer, the plumber in Knowles & Bainbridge's hardware store, is said to be one of the best workmen on the coast. Leave orders for such work at their store. The prices are low, and the work guaranteed.

The V. & T. has made out a new time-table which goes into operation to-morrow. The noon train will arrive at Reno at 12 M. Instead of 12:20, and leave at 2:15, allowing 35 minutes more time than heretofore.

Mrs. Winzell is now prepared to please all the ladies. She has a magnificent stock of millinery goods fresh from the San Francisco and eastern markets. Miss Golden has supervision of that department and will be pleased to see all her friends. See ad.

G. H. SANFORD, Teacher.

Preparing for Business.

A. H. Manning is building a house on his lot, corner Virginia and Third streets. It will be the headquarters for this country for Baker & Hamilton's goods, of which Mr. Manning will carry many carloads.

"HOME AGAIN."

Senator Jones Returns and is Greeted by Many Friends.

Senator John P. Jones, with his wife and children, arrived from the East last night. A special V. & T. train was in readiness to take him home, and he left for Gold Hill a few minutes after 9 o'clock. The Senator would have been here some time ago, were it not that sickness in his family detained him. He was met here by Lon Hamilton and wife and Harry Gorham and sister and a few others came down from Gold Hill to welcome him.

When his car was fairly started he remarked: "This begins to feel like home, and I'll stay here all summer." The train, in charge of conductor Havernor, with Tom Clarke on the engine, went at lightning speed to Carson, where H. M. Yerington received Mr. Jones and scores of others greeted him and his family. On the way, a GAZETTE reporter ventured to ask him a few pertinent questions, among which was: "Senator, may I ask you how the Reno postmaster stands?"

"Well, I don't know, hardly. How do you Reno folks feel about it?"

"Oh, yes," replied the reporter. "The people like Jamison, and find no fault with his management of the postoffice; but there has been considerable talk lately about a change, and the people feel a little curious."

"I cannot tell you anything definite, for the reason that, so far as I know, Mr. Jamison's resignation has not been acted upon yet."

Then the reporter asked the Senator what he thought of David Davis' Presidential chances. This question brought him to a standstill for a moment, apparently. After a thoughtful look he replied: "Don't you know that a man ought to belong to either one party or the other to be a leader? A man who is betwixt and between has nothing solid to stand upon."

This was a sort of negative answer, but the quick-witted reporter understood him.

Mr. Jones said he intended to take a recuperative rest; that he wanted to get on his miner's rig and prow around underground as he used to do when he was hunting up the Crown Point bonanza. The reportorial suction pump failed to elicit any further intelligence. In fact, both dozed off to sleep until Gold Hill was reached. There a large crowd was assembled to welcome the Senator home. His carriage was waiting for him, but he had to shake hands with all before he left the platform. He was very glad to get home, and he evinced his gratification by giving the train men \$20 each, which tops the munificence of Henry Villard, the Northern Pacific railroad magnate.

RENO NOT SO BAD.

A Man Who Thinks Seattle a Good Place to Keep Away From.

A friend writes to Frank Perkins as follows: "I am itching to tell you what I think of Seattle. If I had a bitter spite against a man I would advise him to come here. I think it is the worst place I have struck in a long time. It is over-run, overdone, and really dull, when you compare the business with the number of people here. There is very little employment for those who want work, and not so much money in circulation, compared with the number of inhabitants, as there is in Reno, which is just about as good as anybody's town. This is a lumbering country, and nothing but hard labor will bring money; but wages are very low, and when you see a man with a dollar you can safely bet that he worked hard for it unless he stole it. Hundreds—yes, thousands—are coming here, who leave again as soon as they possibly can, for to remain here is to starve. It rains here in the morning, at noon and night; besides which we have showers between drunks. To sum the whole thing up, it is a hell of a good country to keep away from. Reno is worth a million Seattles to the man who wants to live decently."

Called at a W. O. Place.

A lady called at John Meyers' drug store Saturday evening and asked Sam Hodgkinson for a prayer book. "Madam," said the chemist, "we do not deal in prayer books or bibles, but can give you a copy of the St. Jacob's almanac, or one of Dr. Ayer's pamphlets, if it will answer your purpose." "No, sir, I want a prayer book," replied the indignant lady. "Sorry," said Sam, "that we cannot accommodate you, but sulphur and—"

but before he had time to finish his story she was gone. Hodgkinson is a first-class pharmacist, but would make a poor missionary.

"A Solid Little Road."

A great deal of material for the Carson & Colorado road is going south. Hardly a day passes that track iron and timber are not shipped. The road is being pushed ahead with phenomenal energy, but nothing is slighted. An old railroad man who went to Hawthorne last week said it was "the solidest little road he ever saw."

P. N. Marker's Condition.

Senator Marker is considerably easier to-day, but his condition is such that no one can tell what may occur in the course of 24 hours. He probably appears easier because he is completely exhausted.

THE PANCAKE CLUB.

A Party of Benefactors Take the Cake on the Comstock.

The Enterprise says: The famous Pancake Club of Reno came up to this city yesterday in a four-in-hand over the Geiger Grade. The club is composed wholly of ladies, and has been in existence for 10 or 12 years. It is a secret organization, and for a wonder—the members being ladies—the secrets are well kept. Several of the members are now married, but the organization continues all the same. At stated intervals, and for reasons unknown to any but themselves, this Pancake Club suddenly starts off to the house of some member and there bake and eat pancakes. Those who came up yesterday from Reno, were Mrs. J. B. Williams, Mrs. C. Stoddard, Mrs. Isaac Chamberlain, Miss L. Dixon, Miss S. Jamison, Miss F. Gibbs, and Miss Minnie Gibbs. J. Dixon officiated as driver. The club came to the residence of John Wright, in this city, and at once all hands began baking pancakes and arranging for a big pancake dinner. Mr. Wright said as their only business appeared to be baking the pancakes he thought it would be all right for him to sit down at the table and take his share. He marched into the dining room without a thought but all was right, but he suddenly found himself fired out of the place and the door locked. He begins to think there is connected with this Pancake Club some diabolical mystery, and if anyone in Reno has any information he would like to be given a hint.

Our supposition is that it is a sort of witch's festival; that the pancakes are a mere blind, and that the real feast consists of boiled infants, etc., and that when the doors are closed all the members are flying about the room on broomsticks.

The "Pancake" returned home last evening and report having had a good time.

DYNAMITE.

R. H. Lindsay Suspected of Being in Sympathy With O'Donovan Rossa.

A gentleman living on the south side of the river, going home to his noonday meal Saturday, noticed R. H. Lindsay seated on a large boulder in his (Lindsay's) front yard, lazily turning his drill, while a man he had fixing up his garden was sending it into the bowels of the boulder with a sledge hammer.

The gentleman ate his lunch and returned to his office, thinking nothing more of the circumstance until he returned at 5 to dinner.

He found the neighborhood in a perfect turmoil and wild with excitement. He noticed a large hole in the gable end of J. K. Everett's house, the whole side of his own wooded torn away, and Bob's chicken house and another small building bottom side up in the alley. Thinking a cyclone had passed down the river, and with it perhaps, his wife and babies, he hurried home to find every pane of glass in the house shattered. "What the devil is the matter?" he inquired. "I don't know," replied the terrified servant girl, "unless O'Donovan Rossa has fired off a dynamite cartridge on our front steps." Further inquiry revealed the fact that Lindsay had touched off the blast and was standing back of his residence waiting for the executioner or the tar bucket. He had resolved to quietly submit to any punishment, no matter how severe, for he thought he had killed every man, woman and child and blasted the whole town into atoms. Luckily no one was injured, and the residents of the south side congratulate themselves that Lindsay is through blasting.

That String of Cats.

Hoffman's string of sausage cats are all dead but three. The survivors of the litter seem healthy and will likely "pull through."

One of the cats has no hind legs, while the other will get through the dark alleys out there. The third, or head of the string, is in prime condition, and stands a better chance than the others, for he gets the first cut, so to speak, while his followers will have to eat warmed over hash all their lives. The connecting link seems to start at the tail end of the first cat and run clear through the others.

Tramps' Luck.

It is said that tramps often make a grub stake by finding money and other things along the railroad track that have been dropped from the cars. A few days ago one of these shiftless nomads found a well-filled purse, upon which the whole fraternity in the neighborhood had a great time. They may make an occasional strike, but as a means of livelihood following up the track is not reliable.

Making Things Easy.

The Sacramento parties who have money to loan have arranged to put out \$83,000 in this country. It will be of great benefit to us if rightly used. It will stimulate developments and improvements and be profitable to those who loan and those who borrow.

They Don't Like It.

The saloons of Plumas county have to pay a quarterly license of \$50. This is causing considerable commotion among them. It would be better if the license were multiplied in Reno. The effect would be to break up some groggeries that are now mere nests for criminals.

SILVER WEDDING.

Twenty-Five Years of Wedded Bliss.

Mr. and Mrs. D. S. Tallman celebrated the 25th anniversary of their marriage last Saturday. It was the occasion of a very pleasant family reunion, joined by some old friends from California. The Reno friends of Mr. and Mrs. Tallman improved the opportunity of offering many hearty congratulations in the evening. About 50 of them called in a body. Among the many gifts received were a set of silver forks, from Mr. and Mrs. J. Minford of Sacramento; silver butter cooler, from Mr. and Mrs. Wentworth of Nevada City; silver and gold berry spoon, from Mr. and Mrs. J. B. Johnson of Nevada City; silver pie knife, from Mr. and Mrs. Epley of Napa; silver butter dish, from Mr. J. B. Waldron and family of Napa; silver table spoon, from Mr. and Mrs. Jaques; set silver dessert spoons, from Mrs. Martin Ward; elegant silver casket, from the ladies of the Methodist Church; set of silver table knives, from Mr. and Mrs. L. B. Churchill of Sacramento; silver berry spoon, from Mr. and Mrs. A. W. Norton of Napa; pair of pillow cases handsomely trimmed with hand-made lace, from Mrs. Dan. Pine; silver tea set complete with knives, forks, spoons, etc., from Mr. and Mrs. Thrall and Mr. and Mrs. Hanford; silver card receiver lined with bright dollars, from Little Baby Hanford; a large number of bouquets, wedding cakes, etc., all of which was an unexpected and genuine surprise, and for which the friends, one and all who combined to make this occasion so agreeable to the recipients, will ever be remembered by them with the most kindly feelings of friendship and love.

SIERRA VALLEY ITEMS.

Interesting Scraps from Saturday's "Leader."

It is reported that grain near Lyon is badly frozen.

The Reno stage has changed time now, making the trip from Susanville to Reno in a day.

The Plumas papers are urging the construction of a telephone line from Quincy to Susanville.

Three inches of snow fell in the valley Monday night, and nearly a foot on the hills. In the valley it has all disappeared.

Grouse are said to be plentiful about, but to kill them is contrary to the force and effect of the statute in such cases made and provided.

Mr. L. Dolly has purchased all of the interest of Joseph Fogz in the latter's shingle mill above Randolph. Dolly & Danforth intend to cut 1,000,000 shingles this season.

On and after the first day of May the stages will go through from Truckee to Eureka Mills in one day, this being the order from the authorities at Washington.

Last week grass was six inches high in some places. Since then cold nights have reduced it to four. It got ashamed of its previousness and tried to get back into the ground and out of sight.

TRUCKEE ITEMS.

Scraps of Interest From a Lively Camp.

The following items are clipped from the Republican of April 28th:

A prize fight is being talked up between two well known Truckee sluggers.

Nelson Martin will start his box factory next week. He has contracted for all he can manufacture to a San Jose fruit packing establishment.

Work on the Sherritt House is going rapidly ahead.

The walking match between Wilmot and Johnson seems to be off.

The weather has been very stormy during the week, interfering with work in the mountains.

Sunday Amusements.

A man named Frazer filled up with bug juice yesterday and hunted the town for a fight. He fell up against a solid man from the Western Addition and was soon satisfied that a fight was not what he was looking for. He finally saw Billy Barnett, and thinking if he played in luck he might be able to whip him, made the attempt, when Constable Nash hove in sight and took him away to the bastille.

A Basket Party.

All the ladies and friends of the Reno M. E. Church who are interested in getting up a basket social are requested to meet to-morrow (Tuesday) afternoon at 4 P. M., at the residence of Mrs. F. McRae on Chestnut street, to perfect arrangements as to the time and place for such a party. Let all be on hand in time.

An Old Man's Relief.
